

A Manuscript-associated expression-query taxa

Woody angiosperms (6)

Camellia oleifera

Castanea mollissima

Liriodendron hybrid

Liquidambar styraciflua × *L. formosana*

Quercus suber

Vitis vinifera

Gymnosperms (2)

Cunninghamia lanceolata

Picea abies

Monocot references (2)

Hippeastrum sp.

Zea mays

B CrossSE-TED data-to-service architecture

1 Data acquisition and standardized processing

Traceable SRA/GEO/ENA records; fastp; HISAT2 or Trinity; featureCounts; stage harmonization

2 Resource organization

BioProjects; Runs; samples; 10 taxa; 30 matrices; genes; orthogroups; precomputed results

3 Functional services

Catalog/literature browsing; expression and ortholog queries; stage-associated coexpression; local Smith–Waterman comparison; preliminary oligonucleotide candidates
